

Our Complaints Handling Procedure (CHP) is based on the Scottish Public Services Ombudsman (SPSO) Model Complaints Handling Procedure (MCHP). A revised MCHP was issued by the SPSO in 2020 and we fully implemented the procedure from 1 April 2021.

We regard a complaint as any expression of dissatisfaction about our action or lack of action, or about the standard of service provided by us or on our behalf. We publish information on complaints every three months.

Complaints provide valuable customer feedback. One of the aims of the MCHP is to identify opportunities to improve our services. By recording and analysing complaints data, we can identify and address the causes of complaints and, where appropriate, identify training opportunities and introduce service improvements.

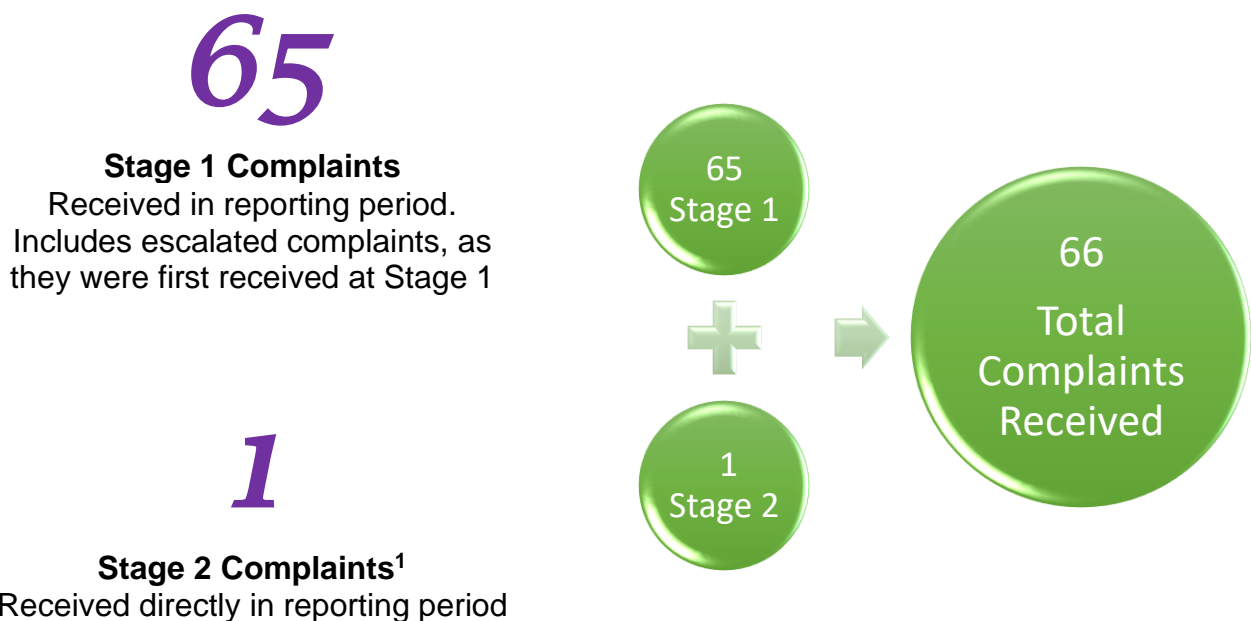

Complaints are broken down into two categories:

Stage 1 – complaints that can be dealt with as front-line resolution within five working days.

Stage 2 - complaints that are of a more serious nature and require some investigation or have been escalated from a Stage 1 complaint. These should be dealt with within twenty working days.

This report details our performance against the MCHP key performance indicators from 01 April 2023 to 31 March 2024.

Indicator One: The total number of complaints received.

¹ Not escalated from Stage 1.

Indicator Two: The number and percentage of complaints at each stage that were closed in full within the set timescales of five and 20 working days.

Stage 1 Complaints

We closed 82.81% of Stage 1 Complaints within five working days (53 out of 64). One Stage 1 complaint received at the end of March 2024 will be carried forward to April 2024.

Stage 2 Complaints

One Stage 2 complaint received October 2023 was unresolved at the end of the reporting period. Only closed complaints can be included when reporting this indicator.

Stage 1 Complaints Escalated to Stage 2

We closed 100% of Escalated Stage 2 Complaints within twenty working days (1 out of 1).

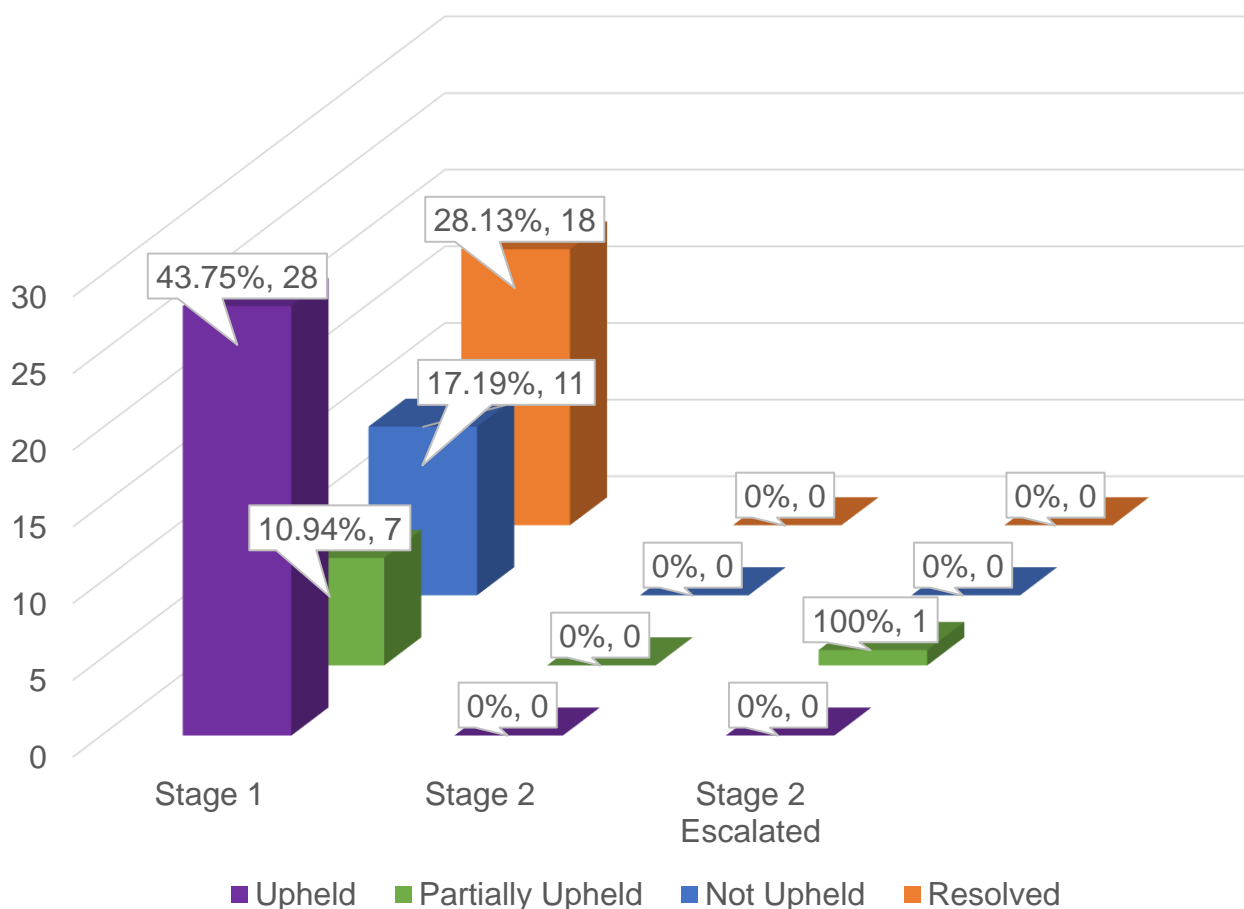

Not all service complaints are closed in full within SPSO timescales. This is due to some complaints requiring more detailed investigation before conclusion. We aim to resolve all complaints as quickly as possible but would rather take longer with some to allow a full and proper investigation of the issues raised, and to achieve an appropriate outcome.

Indicator Three: The average time in working days for a full response to complaints at each stage.

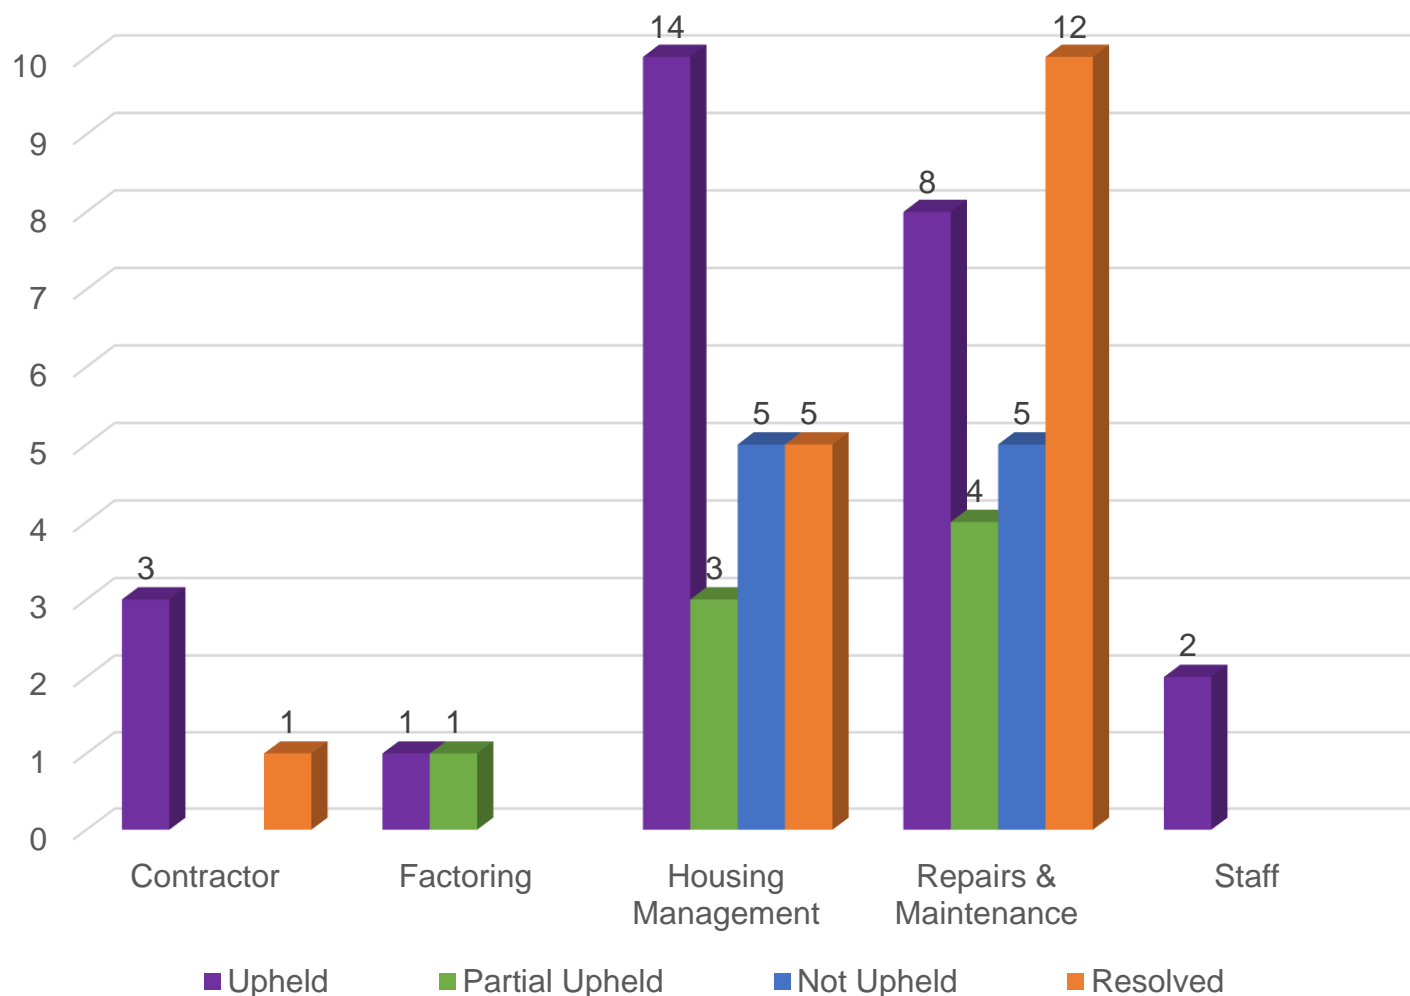

Average Time Taken To respond in full to Stage 1 Complaints 4 days	
Average Time Taken To respond in full to Stage 2 Complaints N/A - One Complaint outstanding as at 31 March 2024	Average Time Taken To respond in full after escalation to Stage 2 20 days

Indicator Four: The outcome of complaints at each stage.

The number of complaints (a) upheld, (b) partially upheld, (c) not upheld and (d) resolved as a % of all complaints closed at each stage.

The number of complaints (a) upheld, (b) partially upheld, (c) not upheld and (d) resolved in relation to the service delivery area:

Trends and Learning from complaints

The main areas of customer dissatisfaction for all closed complaints are in relation to repairs and maintenance 45.31% (29/64) and housing management 42.19% (27/64).

The main complaint themes relate to:

- ✓ dissatisfaction with delays in providing a service;
- ✓ quality of repairs and maintenance;
- ✓ communication (perceived inadequate communication, information, and advice);
- ✓ dissatisfaction with standard of the estate management service;
- ✓ dissatisfaction with timescales for works being carried out; and
- ✓ issues regarding bulk and fly tipping.

Complaint Trends linked to the Scottish Social Housing Charter

The Scottish Social Housing Charter sets the standards and outcomes that all social landlords should aim to achieve when performing their housing activities. The Charter aims to improve the quality and value of services that social landlords provide for their tenants and other customers. By linking service delivery dissatisfaction to the Charter, where relevant, we can identify another strand to the analysis of the complaint trends. This in turn helps to target appropriate actions that can be taken to improve service delivery.

Lessons learned and actions that have been taken or will be taken to improve services as a result of complaints received.

January 2024 – April 2024 Learning

Case Study

A shared owner was dissatisfied with the timescale to confirm works to be carried out to their property following a storm. They felt this was due to a lack of knowledge about the legalities of shared ownership within the team. In addition, the shared owner felt that they had not been kept informed.

Investigation/Action Taken

In response, we discussed the matter with the shared owner, acknowledging that we had not dealt with the matter in a timely manner and failed to keep them informed. In a follow up letter, we acknowledged that, whilst the delay was in part to our contractors having a high volume of work following the storms, we could and should have dealt with the matter in a timelier manner and could have done more to keep the shared owner informed. We also accepted that there was a lack of expertise in the team and promised that we would arrange training for the team on shared ownership.

Learning Outcome

Training requirements identified to be actioned.

October 2023 – December 2023

<p>Dissatisfaction with delays and communication (inadequate communication, information, and advice) throughout the complaints process.</p>	<p>In response to customer feedback we have:</p> <ul style="list-style-type: none">✓ Implemented daily monitoring of complaints by our Senior Housing Officer and Senior Maintenance Officer to ensure complaints are actioned promptly and followed up.✓ Carried out an individual review of staff development and performance in relation to SPSO resolution times and customer satisfaction.✓ A plan to implement CX feedback satisfaction surveys on how the SPSO complaint was handled (from April 2024).

July 2023 – September 2023 Learning

Case Study

Tenant expressed dissatisfaction with a repair to the fencing surrounding their property. The tenant felt that more extensive work should have been carried out and requested the whole fence be replaced/improved.

Investigation/Action Taken

On receipt of the repair request a pre-inspection was carried out by the contractor who identified the work required to ensure the fencing was safe. Following the repair and notification of the tenant's dissatisfaction, the Senior Maintenance Officer and Maintenance Officer met the tenant to discuss their concerns. This allowed PHA to listen to the tenant and understand their concerns relevant to their individual household circumstances. It was agreed to carryout additional work to the fence to address the tenant's circumstances and to alleviate their concerns. The tenant was very happy with the outcome.

Learning Outcome

This was an example of taking the time to listen to the concerns of the tenant, understanding their individual circumstances and agreeing a compromise that both parties were happy with.

April 2023 – June 2023 Learning

You Said...	We Did...
<p>We received comments from customers who feel that we do not respond to complaints quick enough or follow through on agreed actions.</p>	<p>We have delivered training to all staff on the MCHP with a focus on front line resolution, improving customer communication and recording of complaint outcomes.</p> <p>This will empower staff to effectively manage complaints within timescale, ensuring all complaints and actions taken are recorded.</p> <p>It will also ensure that we engage with our customers throughout the complaint process as well as following up on completion of agreed actions.</p>
<p>The most common reason for complaints relates to estate management issues:</p> <ul style="list-style-type: none"> • dissatisfaction with standard of the estate management service; • dissatisfaction with timescales for works being carried out; and • issues regarding bulk and fly tipping. 	<p>In response to customer feedback we have:</p> <ul style="list-style-type: none"> ✓ Increased the staff presence on our estates. ✓ Managers are getting out and about more. ✓ We are working with residents to increase awareness of how to dispose of bulk items and how to help us keep our estates safe, clean and tidy.

When identifying the main theme or category of a complaint, it is important to note that complaints rarely fit into one category and often have several themes. One key issue that has been identified in most complaints is communication. Speaking to our customers and keeping them informed is key to customer satisfaction, regardless of whether we are sharing good news or explaining why we can't do something.

Improvements in complaint monitoring by senior staff and making sure contact is maintained with the customer throughout the complaint process, will have a positive impact on customer experience and levels of satisfaction.

Compliments

We believe it is important to recognise the positive feedback we receive from our customers. All staff are encouraged to record their compliments when they are received. Compliments are shared with the whole staff team at monthly meetings in recognition of the excellent work that is being carried out.

The feedback from compliments is very positive and gives staff an insight to the positive impact they can have on our customers lives.

Just wanted to thank you for the gift vouchers. Gratefully received.

Thank you for the food and fuel vouchers.

Tenant stated they were happy with the service provided and that any time they call regarding a repair it gets dealt with quickly and professionally. "Staff are always friendly and helpful".

Tenant:
"Over the moon with repair to front close door".

Summer 2023 Newsletter looks great, well done and so good to see so much going on.

Tenant commended the installation of the sheds at Growchapel (funded by Pineview) and the positive community benefit felt by users. Also stressed positive mental health impact they have experienced.

Very happy with new kitchen and workmanship.

Glossary

Resolved	A complaint is resolved when both Pineview and the customer agree what action (if any) will be taken to provide a full and final resolution for the customer, without making a decision about whether the complaint is upheld or not upheld.
Upheld	We accept that something has gone wrong and that the customer has not received the expected standard of service.
Partially Upheld	Is applied to complaints with more than one issue and we accept something went wrong for part of it, but not others.
Not Upheld	Investigation does not identify that something has gone wrong and the customer has received the expected standard of service.
Escalated Complaint	If a complainant is unhappy with our response at Stage 1, the complaint is reopened, escalated to Stage 2 and re-investigated.
<i>Learning may be identified from individual complaints, regardless of whether the complaint is upheld or not</i>	

Get Involved

Complaints and compliments help us identify areas where we are performing well and how we can improve service in other areas.

Customer feedback is really important to us and helps to shape the services that we offer.

Consultation Register: The purpose of the consultation register is to identify customers who would be interested in being kept informed of what we are doing and offer us regular feedback. We are looking for customers from across our housing stock to get involved. If you would like the opportunity to share your views on our services and improve them for the future, then please let us know.
