

Prioritising Self-Care

What is self-care?

Self-care is a phrase most of us will have come across, but what does it actually mean and look like? Simply put it's caring for yourself. Self-care is anything that we do to keep ourselves mentally, emotionally, physically, socially and spiritually healthy. We often view self-care as a "luxury" and is usually the first thing to go when our life/work gets busy, demanding and challenging. However if we don't practice and prioritise self-care we risk our well-being and invite burnout.

What does self-care look like?

Self-care looks different for everyone, that's the beauty of it, it's your thing! Some people thrive on social connections while others need lots of alone time. However, there are some self-care practices we should all be doing to look after our wellbeing like sleep, eating a balanced diet and exercise. Here are some examples of what self-care can look like.

Make sleep a priority

A balanced diet

Regular exercise

Reading

Practice gratitude

Time with friends

Gardening

Connecting with nature

Listening to music

Set boundaries, saying NO

Asking for help

Meditation
